**Distributive Education Clubs of America (DECA)** – This co-curricular club coincides with the Marketing classes at the high school. Its purpose is to apply the Marketing knowledge learned in the class to real life situations. One teacher-advisor, as well as a panel of six officers, oversee the club. Competition is one of the most important and exciting aspects of the organization, including regional, state, and international level competition. Students also give back to their school and community with events such as Alex's Lemonade Stand and a Walk to Remember. DECA provides insight into the world of business, offering students the opportunity to establish leadership, communication, and marketing skills necessary to be successful in the business world.

Students in Wind Ensemble accept the demand of college-level repertoire and are encouraged to audition for CJMEA and All-state performance ensembles.

**Charger Pride** - We are the Charger Pride Alliance (CPA): students and teachers who want freedom in our own skin and want to help in overcoming homophobia, transphobia, biphobia, and all other forms of hate against the student body, regardless of age, race, religion, gender, ability, and sexuality. We believe that we, as well as others, should be accepted for who we are. The Spotswood High School CPA plans to include everyone interested in joining, by having no member requirements, and having an open door policy. The Safe Space created by the CPA will always remain open for those who need it. We want to include not only the high school, but the rest of the community as well, by planning events (with and without GLSEN) to raise awareness and educate the community on LGBTQ+ issues by teaching and being an example of acceptance.

Through pictures and words, we forever emboss our place in time. Our yearbook represents every class; therefore we need members from every grade to help create the yearbook. Creative skills are important, as well as organization and knowledge of our specific software. Typing skills are a plus. A training session is held in September for any new members. The editorial staff is selected in June for the following year. Our meetings are held on Tuesday and Thursday from 2:15 - 4:15 pm. A student can be a member of yearbook as well as other clubs or activities. You are able to work at home on your own time if you cannot attend meetings. The design and creation of the yearbook takes time. Generally, we work from the first week of school until the books are distributed in June. As a member, you should be familiar with digital photography. You will be required to take pictures at various school functions, which will be used to create different layouts. Our yearbook is created online through the Internet therefore computer literacy is essential.
